## SUMMARY

I am a Bachelor of Engineering graduated at the Cracow University of Technology and I am first year student of Master's degree at the same University. I am a very ambitious, open minded and diligent person looking for interesting profession in line with my education that would help to start my professional career.

## EDUCATION

**Master's degree in the field of: Mechanical engineering**  
**Cracow University of Technology**  
**Term of graduation: 2022**

Participant in the science club „Internal combustion engine”

## SKILLS

- Finished course „Python and Data Science” at IT Academy in Cracow
- Practical skills in Ansys, AutoCad and Matlab
- Very good command of Microsoft Office
- English at level B+
- Driving licence of category B
- Teamwork skills
- Good communication skills
- Forbearance and patience
- Analytic and abstract thinking skills
- Planning and organization skills

## INTERESTS

- Automotive – I am particularly interested in innovations incl. new technologies in the production of zero-emission vehicles
- Motorsport – Especially F1 where used technologies can be later introduced in road vehicles
- Photography – Landscape and nature are my favourite fields of photography. In school times I have won awards in many competitions
- Team sports – while attending a sports class I took part in competitions of various disciplines and I also played football in a local club.
